Address

101 Xavierville Avenue,
Loyola Heights, Quezon City

Education

2009 - 2021

STEM

Grace Christian College

2021 - Present

BS Computer Science - BS Digital Game Design and development

Ateneo de Manila University

Relevant Coursework

- Data Structures and Algorithm
- Software Tools and Development Frameworks
- Electronics
- Information Management
- Computer Organization
- Software Engineering
- Operating Systems

Skills

- Unity (C#)
- Godot
- Python/Django
- JavaScript/ReactJS
- HTML/CSS
- C++
- Java
- SQL
- Assembly
- Git

Career Objective

My ultimate goal is to develop engaging experiences through games that go beyond mere entertainment. My current expertise lies in crafting simple games using various engines and building user-friendly websites using diverse tools and programming languages.

Projects

Portfolio: <https://aschente11.github.io/>

Game Development

- Developed a diverse range of simple 2D and 3D games spanning various genres including Casual, Action, Platformer, JRPG, and Third-person shooter.
- Utilized industry-standard game engines such as Unity and Godot for game development projects. Additionally, used Python to build simple games from scratch.
- Collaborated with a team of three to brainstorm ideas, iterate on game concepts, and troubleshoot technical challenges throughout the game development lifecycle.
- Demonstrated creativity and innovation in game design, focusing on engaging gameplay experiences.

Website Development

- Collaborated in a 6-member team to develop a routine journal app with ReactJS and Django, gaining hands-on experience in app development and teamwork.
- Created a wireframe for a "Take Action" website page for an organization using Figma to ensure a seamless user experience and the success of the site.
- Proficient in front-end web development with HTML, CSS, JavaScript, and ReactJS for accessible websites.
- Acquainted with back-end development using Python and Django for server-side functionalities and database management in web apps.

Extracurriculars

Secretary of Fitness Improvement Team (ADMU - FIT)

- Managed organization-wide email and partnerships, boosting acquisitions through streamlined communication and strategic networking.
- Secured sponsorships, venues, and executed meticulous logistics for impactful events (e.g., FIT Talks, FIT Workout Month) resulting in positive feedback and strong metrics.

Finance Deputy and Comelec officer (ADMU - Laro Loyola)

- Oversaw the budget allocation and financial management for organization events to ensure optimal resource utilization and financial accountability.
- Worked closely with other Comelec officers to facilitate fair and transparent elections within the organization.

Cashier of Petron Gas Station

- Provided exceptional customer service as a part-time cashier at Petron, efficiently handling transactions and offering personalized assistance to other staffs in need.
